What's on your mind?

Leslie Simao

Eric...I keep hearing the , "Stay tuned for Proof" for the past few years and I never see it. Nothing ever comes of it after the hype dies down. Are you going to provide proof to put an end to this havoc once and for all? Or is this just another Eric "thang"?

Tom Berg This is what I sent to Civil Beat : "I do not meddle in the affairs of employees' personal financial squabbles with third parties and encourage disputes be resolved with mediation or small claims court if necessary. I am not of party to the dispute nor is it applicable to the work at hand I am trying to accomplish for the district and county. I cannot comment on the dispute because I am not involved in this dispute and it does not involve in any way our office at City Hall. The discourse exhibited by both parties in this grievance is not of party to our duties and obligations at City Hall and is a personal conflict between two Ewa Beach residents."
